### Profile

I hold a B.Sc. in Electronic Engineering (Communications) from the Autonomous University of San Luis Potosí (UASLP), an M.Sc. in Electronic Engineering (Telecommunications) from the Monterrey Institute of Technology and Higher Education (ITESM), and a Ph.D. in Signal Processing for Communications from the University of Leeds, UK. With over 20 years of teaching experience, I have taught telecommunications at undergraduate and postgraduate levels. During my Ph.D., I focused on designing detection algorithms for spectrum sensing and analyzing techniques to maximize throughput in cognitive radio networks. As a Postdoctoral Research Associate at the Centre for Research and Advanced Studies of the National Polytechnic Institute (CINVESTAV-IPN) in Mexico City, I conducted research on wireless communications for unmanned aerial vehicles (UAVs) within the French Mexican Laboratory for Informatics and Automation (LAFMIA).

Nowadays, I am an Associate Professor for the B.Sc. in Telecommunications Engineering at the Faculty of Sciences, UASLP. I was the Coordinator of the B.Sc. degree in Telecommunications Engineering from August 2016 to August 2023 and have been the Chief of the ITC Department since August 2020. Additionally, I coordinate the ITC Working Group of the System for Science, Technology, and Innovation of the State Government of San Luis Potosí. As a Senior Member of the Institute of Electrical and Electronics Engineers (IEEE), I am affiliated with the Signal Processing Society and Communications Society. In 2021, I was elected to the Evaluation Commission of the System of Researchers of San Luis Potosí in the Engineering Area. Since January 2015, I have been a member of the National System of Researchers (SNI) of the Mexican National Council for Humanities, Science and Technology (CONAHCYT). From 2020 to 2023, I served as an Associate Section Editor for the Journal of Applied Research and Technology of the National Autonomous University of Mexico (UNAM).
